

stay on the Fremont ATV trail continue southeast. DO NOT take Corral Hollow or Cabin Hollow, as these trails are not designed for ATVs. Instead, follow Berry Spring Creek Road and Mud Spring Bench to Tom Best Springs Road, then head south.

At Scenic Byway 12, cross the main paved highway to the trailhead on the south side and continue on the Fremont ATV Trail to a junction. Head east (1815) to the junction of 091 where you can go to either:

- Ruby's Inn: go left on 091 to East Fork Road, then south to the Daves Hollow turnoff. From there, follow the well marked signs to Ruby's Inn.
- Tropic Reservoir: turn right at the 091 junction and head south, following the signs to Tropic Reservoir.

Several side routes along the Fremont ATV Trail are easy and scenic rides. Casto Canyon has Bryce-like formations and easy trails. Limekiln Canyon also offers unusual scenery and is popular with the locals. Or you can combine the two canyons to make a looped route. Many trails are multi-use trails, so please be aware of horses, hikers, mountain bikes, and other vehicles. Please respect the rules, stay on designated ATV routes, and have fun.

Services are available at Ruby's Inn, Panguitch, and Circleville.

Make Ruby's Inn your headquarters for your ATV experiences!
